

# Update Sterling Service

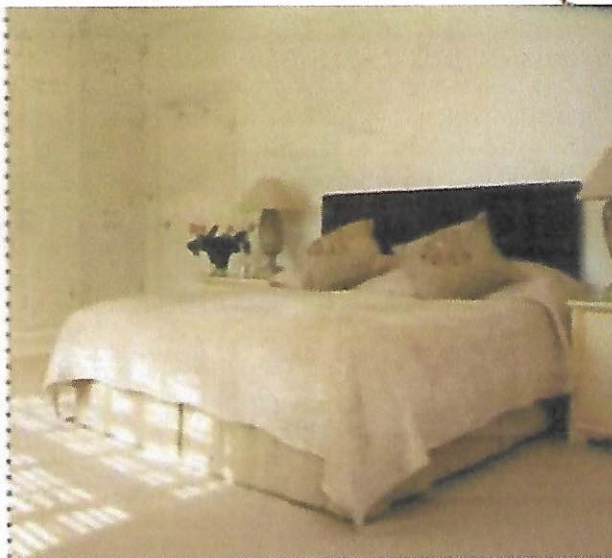

Buying or selling? If selling, the new department at Savills could be well worth a visit. If you are looking to buy, however, you will find that Haringtons is one of the best property-search agents around

## Haringtons UK

When Jonathan Harington switched from selling country houses to buying them in 1986, nobody thought there was a business to be had. Ten years later, however, Knight Frank persuaded him to set up a buying department for them. Now, employing someone to find you a property and give advice on value and negotiations is no longer a rarity, but a necessity. In 2004, with demand increasing, Jonathan realised that to avoid any conflict, buying and selling should be kept separate – and so he set up Haringtons UK with Saul Empson, who had over 20 years' experience in the property market and heads the London side. Together, they have built Haringtons UK into a trusted service which can be defined by its two main qualities: independence and experience.

## The [redacted] 'House Doctor' service

Simon Buhl-Davis has worked in sales and lettings for the past five years, and has been developing properties since the tender age of 18. He therefore brings with him a wealth of experience to the new department he is setting up [redacted], which will be based in the Kensington office. Services offered will include house doctoring, dressing, refurbishments, furnishing, and anything else to ensure that the interior and exterior presentation of a property is to the highest of standards – in order to maximise the return for sales and lettings on behalf of clients.
